**WORK  
EXPERIENCE**

<b>Massachusetts General Institute of Health Professions</b>	Boston, MA.	June 2021-present
--------------------------------------------------------------	-------------	-------------------

Full time Faculty member of the Family Nurse Practitioner program. Teach Advanced Health Assessment, Advanced Pharmacology, Diagnostic Measures and Psychomotor Skills and Primary Care in the FNP track. Sit on the board of advisors for FNP students. Clinically precept FNP students. Guest lecture in the Pediatric program.

<b>Physician One Urgent Care</b>	Medford, MA. <i>Doctorate of Nursing Practice</i>	May 2021-present
----------------------------------	------------------------------------------------------	------------------

Holistically treated patients in the urgent care setting of all ages from infants through geriatrics. Excellent communication skills allow me to build a rapport with my patients quickly. Strong clinical physical assessment skills allow me to treat both acute and chronic illnesses in patients. Comfortable with procedures such as: I & D, suturing, splinting, bracing, reading x-rays, reading EKG's, drawing labs, STI screening and more.

<b>Mass General Brigham Urgent Care</b>	Boston, MA <i>Family Nurse Practitioner (Urgent Care)</i>	Nov 2017-Mar 2021
-----------------------------------------	--------------------------------------------------------------	-------------------

**Children's Hospital Boston** Boston, MA Mar 2016-Mar 2022  
*Pediatric Nurse Practitioner (Ambulatory Care Center)*

Provided direct care to a variety of ambulatory patients. Independently evaluate and treat patients with a variety of chronic, complex medical conditions. Perform a complete history and physical exam and interpret results. Collaborate with specialists regarding complex medical decisions about patient care. Planned, implemented and evaluated treatment plans. Directly supervised biologic infusions, blood transfusions, food and allergy challenges. Educated patients and families about signs and symptoms of anaphylaxis and proper treatment for any negative side effects experienced.

**SkinHealth Centers Med Spa** Boston/Wellesley, MA. Oct 2018-present  
*Nurse Practitioner/Injector*

I have advanced training in Botox, Dermal Fillers, IV therapy and PRP hair restoration. I have begun to learn laser hair removal, PRP hair restoration and IPL facials as well.

**AFC Urgent Care** Dedham, MA. Aug 2018-Apr 2020  
*Family Nurse Practitioner*

Treated patient ages one and up with Urgent Care needs. Typical treatments include: physical exams (health, sports and pre-employment), labs, vaccines, travel consults, ear wax removal, injuries, splinting, suturing, I & D, reading x-rays, EKG interpretation and STD testing. I have the ability to treat many health conditions.

**Just Kids Sick Care, Inc.** Cumberland, RI Aug 2015-Mar 2016  
*Pediatric Nurse Practitioner (Urgent Care)*

Provided urgent care to pediatric patients ages newborn to nineteen years old, for issues such as: toe nail removal, foreign object removal, casting/splinting, review of X-rays, general pediatric medicine, general dermatology issues and other emergency management skills. Assess, diagnose and treat many common childhood illnesses such as croup, pneumonia, RSV, flu, gastroenteritis, asthma, swimmers ear, otitis media and many other common childhood illnesses.

**Pediatrics Homecare** Brighton, MA Sept 2014-Mar 2016  
*Registered Nurse*

Provided homecare nursing needs to pediatric patients and their families. Worked with many children with many different diagnoses and am very comfortable working with patients with any of the following: contractures, trachs, g-tubes, j-tubes, PICC lines, central lines, TPN, ostomies, catheterizations, wound assessment, skin rashes, rhabdomyosarcoma and many other things. I was able to practice independently in this role, after proper training and supervision.

**Centre Pediatric Associates, P.C.** Brookline, MA Feb 2015-Sept 2015  
*Registered Nurse: Triage/Primary Care*

Provided health and medical care for children from birth through their mid-twenties. Offered expert care while working with the family to address their concerns, fears, problems, and options. Identified changes in a child's signs and symptoms and intervened in emergent situations. Differentiated between normal and abnormal physical findings. Analyzed situations to anticipate pathophysiological problems and detect changes in status. Administered medications and treatments using age-appropriate guidelines. Administered vaccines, updated health forms and referred to pediatric specialists. Worked closely with primary care physicians as a liaison between the physician, specialist, family and the patient. Maintained privacy and confidentiality in the nurse-child relationship, while serving as an advocate for the child.

**Community Healthlink** Leominster, MA Sept 2011-Aug 2012  
*Cognitive Behavioral In-Home Therapist*

Provided direct in-home therapy to behaviorally challenged children and their families. Completed trauma-focused therapy training. Assessed safety of children in their home and school environments. Mentored children and adolescents by assisting them to develop proper coping skills and bringing them into the community to practice these skills.

**Luk, Inc.**

Fitchburg, MA  
*Residential Counselor*

July 2010-Aug 2012

Counseled emotionally unstable adolescent boys and girls who were living in a group home. Participated in individual and family therapy with the adolescents. Encouraged the adolescents to verbalize their emotions in proper ways.

**PRECEPTING/  
LEADERSHIP/  
TRAINING/  
PRESENTING  
EXPERIENCE**

**Boston Children's Hospital**

Boston, MA  
*Pediatric Nurse Practitioner*

Mar 2016-Mar 2022

I have completed multiple educational presentations to staff members at Boston Children's Hospital on the following topics: Anaphylaxis, Irritable Bowel Disease (Crohn's/Colitis), Eosinophil Esophagitis (EOE), Pediatric Asthma, Seasonal Allergies, Allergic Rhinitis, Food Allergies, Dermatological Conditions, Caring for the Pediatric Patient, Food Challenges and How to Manage Infusion Reactions.

I have precepted multiple NP students at Boston Children's Hospital from multiple organizations including: MGHHP, Simmons, Regis and UMASS Boston. I have taken one student per semester since August 2016.

**Partners Urgent Care**

Brookline, MA  
*Family Nurse Practitioner*

Nov 2017-Mar 2021

I have completed multiple educational presentations to staff members at Partners Urgent Care on the following topics: Anaphylaxis, Asthma, Seasonal Allergies, Allergic Rhinitis, Food Allergies, Dermatological Conditions, Caring for the Pediatric Patient, Tick Bites/Lyme disease, Antibiotic Stewardship and Streptococcal Pharyngitis.

I have precepted multiple NP students at Partner's Urgent Care from multiple organizations including: MGHHP, Simmons, and MCPHS. I have taken one student per semester since January 2018.

I am one of the NP's in clinic responsible for orienting and training new hires at Partners Urgent Care. They shadow me for a few days, then I shadow them and help guide their clinical practice. I am a mentor for new graduates at Partners Urgent Care.
