National Institute of Nursing Research, T32-NR-007104, "Advanced Training in Nursing Outcomes Research", Linda Aiken, PI

NURSE PRACTITIONER CLINICAL EXPERIENCE

11/2021-present Massachusetts General Hospital, Boston, MA
NP in adult ambulatory hematology/oncology infusion clinic. Responsible for assessing and intervening during hypersensitivity reactions, managing side effects of oncology therapy treatments, coordinating plan of care with interdisciplinary team, triaging urgent care visits, and transferring patients to emergency department or coordinating admissions when necessary.

6/2019-11/2021 Massachusetts General Hospital, Boston, MA
NP performing research via trials in the Alzheimer's Clinical & Translational Research Unit (ACTRU). Activities include consenting patients for various clinical research studies, lumbar punctures, history and medication reviews. I also assist Dr. Steven Arnold in the Memory Disorders clinic in performing histories and physicals and ordering diagnostic procedures and imaging.

REGISTERED NURSE CLINICAL EXPERIENCE

January 2010-present Massachusetts General Hospital, Boston, MA
RN on acute adult medical oncology unit; per diem position, OCN certified provider to administer chemotherapy and biotherapy agents.

April 2011-July 2013 Jeanes Hospital, Philadelphia, PA
Float Pool RN, per diem position, working on medical, surgical, and rehabilitation units.

April 2009-December 2009 INOVA Fairfax Hospital, Falls Church, VA
RN II on an acute care medical/surgical oncology unit. OCN certified provider to administer chemotherapy and biotherapy agents.

November 2007-August 2009 Providence Hospital, Washington, DC
Assistant Nurse Manager on subacute rehabilitation unit serving primarily geriatric populations.

July 2006-October 2007 George Washington University Hospital, Washington, DC
 RN on an adult acute care medical/oncology unit. Certified to administer chemotherapy and biotherapy. Gained experience with pain management, palliative care, as well as psychiatric and community health issues consistent with the large urban patient population.
