Curriculum development - MGH Institute of Health Professions Post-Professional OTD Program

- Responsible for all aspects of development of core course for PP-OTD and SLPD students: OH888 Quality Improvement and Program Evaluation in the Health Professions, including learning objectives / syllabus, assignments, discussion posts, asynchronous learning modules, synchronous live classroom activities, guest lectures. 2020-present
- Responsible for all aspects of development of a prerequisite bridge course for bachelor's-prepared PP-OTD students: OT720 Essentials of Evidence-based Practice for OTs, including learning objectives / syllabus, assignments, discussion posts, asynchronous learning modules, synchronous live classroom activities, guest lectures.
- Partnered with program director to co-develop the five-course PP-OTD Innovation Project seminar sequence (OT891: Discover, OT892: Design, OT897: Build, OT893: Improve, OT896: Inform).
- Conceptualized a roadmap to illustrate the Innovation Project process, activities, and outputs, and a Solution Areas guide to inform students' decision-making on various project deliverable formats.
- Incorporated theoretical frameworks into Innovation Project curriculum (including Design Thinking, the ACRM Rehabilitation Treatment Specification System, IHI Model for Improvement, CDC Guide to Program Evaluation, Culturally Responsive Evaluation) to provide a reproducible structure for guiding students through the best practices of project design, implementation, and evaluation.
- Contributed to inaugural processes and tools for program operations, including program manual, academic mentor-mentee pairing, mentorship agreements and assessments, dissemination outputs, and student professional development activities.
