ART OF RECOVERY

Tedy's Team Center of Excellence in Stroke Recovery co-sponsored this unique event a few weeks ago for those affected by neurological injury and clinicians in the Greater Boston area. The day included two art workshops, a facilitated group brainstorming session, a panel that answered common questions, and an exhibit hall that showcased relevant resources.

HEALTH CAREERS PATHWAY PROGRAM

Tedy's Team Center of Excellence recently joined with MGH physical therapy faculty to educate English Language Learners from Charlestown High School about basic cardiovascular anatomy, and the signs and risks of stroke.
