GRANT AWARDS

Unfunded studies in progress

Assessing risk in research studies: EVBRES research ethics committee survey.

Principal Investigators: Kolstoe, S.

Co- Investigators: Durning, J., Yost, J., & Aleksandrova, S.

Period: November 2020-present

Purpose: As a component of EVBRES COST Action (<https://evbres.eu/>), the aim of this study is to generate a formal assessment of the potential risk of conducting research using various designs according to the individuals involved with the ethical conduct of research and ethics approval.

COVID-19 study of healthcare and support personnel (CHAMPS). Research Assistant.

Principal Investigators: Kaufman, P, Havens, D., & Mensinger, J.

Co- Investigators: Bradley, P., Brom, H., Copel, L., Maldonado, L., Smeltzer, S., & Yost, J.

Period: March 2020-February 2024

Agency: Travers Therapeutics & Villanova University M. Louise Fitzpatrick College of Nursing

Funds Awarded: \$50,000 in kind

Purpose: A longitudinal study to assess the experience and self-reported health and well-being of essential workers and first responders, service staff, and healthcare professionals who provided support for patients, treatment sites and the community during the COVID-19 pandemic in the short and long term. CHAMPS will also serve as a registry for future, ancillary and sub-studies.

Ethics committees' requirements for evidence syntheses: A scoping review.

Principal Investigator: **Durning, J.**

Co- Investigators: Yost, J., Kolstoe, S., & Aleksandrova, S.

Period: November 2020-present

Purpose: As a component of EVBRES COST Action (<https://evbres.eu/>), the aim of this study is to conduct a scoping review to identify and map the literature related to the requirement for evidence syntheses by research ethics committees.

Skin-to-skin scoping review.

Principal Investigator: Gentile, J.

Co- Investigators: **Durning, J.**, & Yost, J.

Period: June 2023-present

Purpose: The aim of this study is to identify and map the existing published and gray literature related to mothers or caregivers who use skin-to-skin (or “kangaroo”) care with hospitalized pre-term infants less than 37 weeks of gestation.
